Dear Cattlemen:

Welcome to our "Building with the Basics", 40th annual, production sale. As to our past customers, thank you, to those looking for the first time we think you will find something that will fit your program. Our number one goal is to build better Angus cattle. It's your success and sustainability that drives our operation and there has never been a time when the right genetics were worth so much. We feel there is a bull for everyone in the lineup with a nice offering of both Hybrid, Commercial Angus and Registered Angus bulls. The rapid changes in genomics and EPD'S make bull selection a constantly evolving process and an interesting time to be in the cattle business. We welcome any comments, suggestions, or concerns you may have and will go to great lengths to make your experience of owning a Gaaskjolen bull a profitable and enjoyable one.

Our 2025 sale offering will consist of popular proven bloodlines as well as some fresh young genetics. You can put together half brothers for consistency, moderate birth weights for calving ease, bulls with substance, bone, eye appeal, and easy fleshing. The choice is yours. Whatever helps your program succeed.

The bulls have been through a complete vaccination program, poured with Ivermectin followed by CleanUp. In addition to the normal protocol for respiratory diseases they have been vaccinated and given a booster for foot rot. As in past years they have been fed a complete commercial CHS feed called Bull Challenger, a feed designed with growing young bulls in mind.

This year's bulls survived a tough calving season but had a good summer and easy winter. They will be in good shape on sale day. The genomics prove this is a very high performance set of bulls. Again this year the birth weights are a mixture of being weighed on a digital scale, a spring scale, taping a foot, and a few are an educated estimate. In all cases they were born unassisted and calving ease shows up in almost every pedigree. Some are recommended for heifers.

This is a strong set of bulls and represents roughly a third of our bull calf crop. They will be sold as commercial bulls with the exception of the registered angus. They are registered and have genomic enhanced EPD's. We invite you to browse through the catalog and find the right bulls for your operation. If we can be of any assistance just give us a call and thanks for considering our bulls. Stay safe and have a better 2025!

The Gaaskjolen Family

Breeder's Guarantee:

First Breeding Season Guarantee: All bulls will be sold as guaranteed breeding animals and will have been semen tested by Dr. Jenny Meyer prior to the sale. Bulls will be kept at our risk until delivery and then the risk will be shared with the buyer until the end of breeding season. In the case a bull is injured and loss of use occurs prior to Sept. 1, 2025 a replacement bull will be offered providing one is available. If a satisfactory bull is not available, the bull will be covered for 50% of the purchase price minus the salvage value and given as a credit at next year's sale. This is NOT a mortality guarantee and it is recommended that anyone needing that coverage buy mortality insurance.

Trucking and Yardage:

We will deliver the bulls free within 250 miles or you can haul your bulls home sale day and deduct \$50 per head. Bulls will be kept free of charge until April 15th and then delivered.

Sale Day Phone: (605) 374-3877

40 years of "Building with the Basics"...

Zachary Gaaskjolen, Champion Heifer Calf, sponsored by Christman Ranch

High gaining Gelbvieh bull (Lot 6) owned by Keith Gaaskjolen, Meadow, SD. His gain ratio is 135, his WDA at 112. He sells!

Zachary Gaaskjolen's Cow/Calf pair won the Heifer Futurity. This fair cow/calf pair came from Gaaskjolen Gelbvieh of Meadow, SD.

Vanden Gaaskjolen gives his fair entry a few words of encouragement.
